WALL READERS

Design XS - Mullion Wall Reader

The Salto Design XS Mullion Wall Reader for flush mounting has been specially designed to fit lifts, sliding doors or electronic gate doors that have a narrow profile frame and where there is insufficient space to install a standard wall reader. Combined with the Salto smart access controller, it facilitates the integration of the wall reader with any Salto smart access platform.

Features

- Compact slim reader module design reader.
- Specially designed for narrow or aluminium profile doors, making the installation quick and easy with minimal impact.
- Fully integrated with the Salto XS4 platform.
- Virtual network capable through Salto SVN data-on-card technology.
- Modern aesthetic design with green/red and blue clear LED colour optical signal.
- Blue light indicates that the user key update is in progress through Salto Virtual Network technology.
- Acoustic and optical signalling, dual colour green/red to indicate access authorisation.
- Can be used both indoor and outdoor, design for optimum weather resistance: Electronics potted in resin.

Technical characteristics

- The wall mounting is very easy. The width is less than 40mm which make it compatible with standard door frames.
- To be used in combination with controllers (CU42xxx or Salto KS controllers (CU41xxx).
- Connection to the door controller: 4 wires.
- Designed to work with an online Salto SVN access control platform, with a stand-alone system or cloud-based Salto KS access control platform.
- Maximum distance between the door controller and the wall reader 400m using a twisted pair cable.
