Milestone VMS Integration

C12730

Product description

Gallagher Command Centre and Milestone XProtect have a bi-directional integration that allows either to be the front-end system, giving operators the ability to confidently manage incidents on site in a way that suits them.Features and benefits:

- Respond to events and alarms in either system
- Events, alarms, doors, inputs, and outputs actions in one system will automatically be updated in the other, providing a single source of truth
- Access granted decisions include those based on License Plate Recognition.

Gallagher operators can:

- View video associated with alarms
  - Milestone alarms include motion detection and other analytics
  - Gallagher alarms include duress, forced door, and perimeter etc
- Stream footage in H.265
- Pan, tilt and zoom the camera
- Capture an image of the current frame
- Challenge access requests (approve/deny)
- Re-size footage to fit the aspect ratio of the camera tile, or display it in its native aspect ratio
- Move a camera to a set position (as supported by the camera)
- Place multiple camera tiles alongside each other to view video from multiple cameras simultaneously
- Pre-configure a camera tile to view live video from a camera or to display live video in response to an event.

Milestone operators can:

- Acknowledge and process Gallagher events and alarms
- View and open Command Centre doors
- View Command Centre cardholder images and personal data fields in Milestone for synchronized cardholders
- View and action Command Centre items such as doors, inputs, outputs, fence zones, and intercoms
- View the status of Command Centre doors and change the door access mode.
